CAREER OBJECTIVE

MCA graduate skilled in the MERN stack, seeking an entry-level Full-Stack Developer role to build responsive, scalable web applications and contribute to real-world software products.

TECHNICAL SKILLS

Programming: HTML, CSS, JavaScript

Databases: SQL, MongoDB

Frameworks & Libraries: Bootstrap, React.js, Express.js, Node.js

Tools: Git, GitHub, VS Code, Postman

Microsoft Office: Excel, Word, PowerPoint

Operating System: Windows

PROJECTS

Resume Builder | *MERN Stack*

- Developed a full-stack resume builder using the MERN stack with secure user authentication.
- Implemented multiple resume templates, PDF generation, and profile image upload using Multer.
- Integrated Nodemailer for email verification and designed a responsive, user-friendly interface.

Zendesk Project | *MERN Stack*

- Built a role-based apartment help-desk system with User, Admin, and Super Admin modules.
- Developed ticket management, status tracking, and dashboards using React.js and Node.js.
- Implemented JWT authentication, REST APIs, and MongoDB for secure ticket management.

CERTIFICATIONS

- **MERN Stack Developer Certification** – GUVI (Incubated by IIT Madras): Learned full-stack web development using MongoDB, Express.js, React.js, Node.js, REST APIs, Git, and deployment.
- **PGDCA** – Astro Computer Education, Chennai (2022–2023)
- **Junior Grade Typewriting (English)** – First Class, Government Technical Examinations (2017)
